

## **Westside Pavilion**

**Subject: Fire Alarm – Required Contractor – Siemens Buildings Technologies, Inc.**

Attached is the typical pricing schedule for the equipment, engineering and labor costs for the Fire Alarm System. **The tenant will be required to use Siemens for the reprogramming only at tenant's sole expense.** It is recommended that the tenant utilize Siemens for the entire project scope, however; if the tenant wishes to use their own contractor to do the work or vendor to purchase the equipment from they will be allowed to at tenant's sole expense.

If you do elect to use Siemens for the entire project they will require the tenant to provide CAD files so they can produce the proper drawings for city submittals and a **50% deposit in advance with the balance due before the final test with the Fire Department.**

If you should have any questions please contact Arch LeGrone @ (714) 306-1961.
